Curtis Now In Jail As Result Of His Hoax In Kidnaping

By QUENTIN REYNOLDS

TRENTON, N. J., May 19.—The grand jury of Hunterdon county was expected to be called by Justice Thomas A. Trenchard today to return an indictment against John Hughes Curtis, who spent the night in the Flemington jail, sent there by the explosion of his bubble of lies that hoaxed Colonel Charles A. Lindbergh, the police authorities of the county and the whole civilized world.

Curtis went to jail late yesterday afternoon after a hearing before Justice of the Peace George Webster who held court in the garage of the Lindbergh home.

Prosecutor Anthony M. Hauck asked that Curtis be held in \$10,000 bail to answer to the charge of "willfully furnishing false information to the authorities." Unable to furnish bail the Norfolk shipbuilder, whose weird fabrications kept police and naval agencies running about on phantom chases, was hurried to the county jail at Flemington.

The great public drama came when Curtis left the Lindbergh home—the home of the man he had deceived while his heart was torn—and was taken by state troopers to the county jail at Flemington.

He sat in the back seat of the official state automobile, his face almost entirely covered with a coat pulled up high around his ears and his hat pulled down low over his eyes, observers saw, however, that his face was pallid and drawn; that there were deep lines around his mouth and eyes and he appeared deeply worried.

Crowd At Jail.
When the car skidded to a stop in front of the county jail, it had to plow its way through a crowd of several hundred persons who were waiting its arrival. There were murmurs of resentment from the crowd.

Surrounded by state troopers in their gaudy blue and grey uniforms, Curtis was rushed into the jail. Flashlight guns exploded and the (Continued On Page Two)

American motorists paid a tribute of respect to the memory of David Jameson today. In a service that was but minutes long, but spoke a reverence that was timeless in its wealth of feeling the American Automobile Association presented the Jameson Memorial hospital with a memorial plaque at noon today, with Thomas P. Henry of Detroit, president of the A. A. A. making the presentation.

Gathered in the lobby of the hospital were officials of the A. A. A., the Pennsylvania Motor Federation, delegates to the convention, friends of Mr. Jameson and the nurses of the hospital.

Mr. Henry spoke but little. "We have come to New Castle today," he said, "to pay some small tribute of respect to the memory of our former leader, David Jameson."

In his lifetime he probably did more than any other man before or since, to advance and protect the interests of motorists. He was a great man and rendered the kind of service that only a great man can. This plaque is our method of conveying in a small way to the citizens of New Castle the very high esteem in which we held him as our president and in which we will always hold him.

County Funds On De-

SETTLEMENT IS
MADE WEDNESDAY

Some Of Funds To Be Used
By County On Year's
Road Program

Settlement in full for money deposited by Former County Treasurer, Adda M. Smiley, in the Citizens Bank of Ellwood City, was made by the United States Fidelity and Guarantee Company, Wednesday afternoon, when County treasurer, William O. Pitts, was paid \$147,637.53. The original deposits were \$147,161.74. The amount paid Treasurer Pitts included some interest.

Negotiations pending a settlement have been hanging fire for some time, as it was necessary that the 1931 county books be audited, before the matter could be finally adjusted. The bonding company never at any time disputed the claim, and the fact that the company has made a full settlement is evidence of its financial responsibility.

Of the amount which was received something over \$60,000 represents the county's share of the gasoline tax collections. This money will be used in road projects on which county and state unite.

The balance of the money goes into the general fund. The money comes at a time when it was badly needed, as funds were running low, and collections of 1932 taxes have not yet come in very sizable amounts.

PARIS, May 19.—A sharp change in the traditional French attitude toward political debts, enabling cancellation of reparations "provided the French taxpayers are spared new burdens," may be advocated by Edouard Herriot, slated to become premier, according to reliable indications today.

Herriot, leader of the radical Socialists, has been called into consultation by President Albert Lebrun for the first of a series of conferences preceding his formation of a cabinet.

In a side-steps issue appearing in the Ere Nouvelle, coinciding significantly with his visit to the Elysee Palace, Herriot recommended an attitude of "suppleness" on the part of France at the forthcoming Lausanne conference.

He cleverly side-stepped the interrelationship of war debts and reparations but hinted strongly that he would favor a more conciliatory stand toward Germany on condition that such an attitude will not strain the pocketbooks of France's taxpayers.

HARRISBURG, May 19.—Pennsylvania Democrats convened here today for their annual reorganization caucus which in essence was a final pre-convention showdown between Roosevelt and Smith presidential forces with the party's state chairmanship at stake.

Both John R. Collins, the present state chairman, who has consistently advocated an "unpledged" convention delegation, and Warren Van Dyke, who broke away from the state organization to head the Roosevelt-for-President league, were equally confident of success in the race for the chairmanship.

Collins Favored.
Van Dyke, supported by the same forces which sought preference for Gov. Franklin D. Roosevelt in the primary, asserted at least 76 members of the state committee will cast their ballots for him as state party chief. Collins made claim to 74 of the 113 votes.

Although there was little doubt that the vote on the committee chairmanship would not be lopsided. Observers gave Collins a slight edge in the balloting, contending that many Roosevelt supporters would cast their ballots for Collins to preserve party unity and strength of (Continued On Page Two)

'Jafsie' Continues To Scan Rogue's Gallery Pictures For Kidnaper

NEW YORK, May 19.—With John Hughes Curtis, Norfolk, Va. arch-hoaxer, in jail, actual search for the Lindbergh baby kidnaper-murderer swept forward today along two channels.

Even though subjecting Dr. John F. Condon, aged Fordham university lecturer, to questioning "from time to time," police said he was the only one of the many figures appearing as negotiators in the case to retain his stature.

Still Views Pictures.
Dr. Condon will visit still another rogues' gallery today to try identification of the man to whom he tossed \$50,000 in ransom money over a cemetery wall with the authorization of Colonel Charles A. Lindbergh, but without recovering the child.

In announcing that Dr. Condon failed to identify any of the photographs in the Mount Vernon, N. Y., rogues' gallery, Colonel H. Norman Schwarzkopf, superintendent of the New Jersey State Police, also revealed the questioning of Condon.

But "his answers adhere consistently to the fundamental facts related so far," Schwarzkopf's bulletin added.

Near Exhaustion.
Condon appeared on the verge of exhaustion at his Bronx home today. The 72-year-old pedagogue has spent a strenuous two months since he entered the Lindbergh case. Tomorrow he is scheduled to appear as witness before the Bronx county grand jury investigating the payment of the futile ransom.

Condon, returning home from delivering a lecture last night, revealed he received five or seven notes, supposedly from the kidnaper after he turned over the ransom money.

In one, he said, he was informed, the baby was not returned because "it makes too much noise." Others demanded more money, Condon declared.

He answered them as directed by placing his missives under a certain rock in the graveyard where he made the payment. But he said he was uncertain whether these notes from the purported abductors were authentic, as they did not bear the cryptic symbol characteristic of the original ransom note left in the (Continued On Page Two)

TRENTON, N. J., May 19.—Governor A. Harry Moore, of New Jersey, today said he was "eager" to send a representative to Norfolk, Va., to hear the story of the Rev. H. The governor's statement followed a statement by Col. H. Norman Schwarzkopf, of the New Jersey state police, that there was nothing that would in any way link Curtis with the actual kidnaper, the collectors of the \$50,000 ransom (Continued On Page Two)

The nation's heads are grappling with problems strange and new, on how to raise a lot of dough, by getting taxes through, and other lands are just the same, they are their grief and woe, but most of us are trying to get our garden truck to grow. The problem now is when to plant, and what to plant and when, and should we raise a flock of corn or set a bantam hen. Should radishes be planted when the moon is new or old, and should we set tomato plants when the nights are chill and cold. Let presidents take on the job of handling our fix, but you and I have other tasks, the weather's sixty six.

JUNIOR WOMAN'S CLUB HAS SOCIAL TIME

The New Castle Junior Woman's club had its regular meeting Wednesday evening in the home of Mrs. D. Duff Scott, 123 Park avenue, and this delightful event marked the close of the 1931-32 season, which has been most successful.

During the evening officers were elected for the coming year, which will begin with the September meeting. Miss Elizabeth Andrews will be the president; Ina Tucker, vice president; Agnes Webster, recording secretary; Margaret Tucker, corresponding secretary; Ingelborg Hallgren, treasurer, and Shirley Holbrook, parliamentarian.

Three new members were accepted: Esther Levine, Mary Wilson and Grace Strobel. A committee, consisting of Mrs. Duff Scott, Mrs. Margaret Tucker, Ruth Sample and Margaret Tucker, was named to make arrangements for a picnic in the near future.

When business was laid aside for the evening, card tables were put in place and a clever "circuit" idea was carried out in the bridge appointments, the decorations and the refreshments.

Each member brought a "White Elephant" to the party and these were exchanged amid much merriment. The bridge prizes were captured by Ruth Sample and Elizabeth Wallace.

The success of the evening's program was due to the careful planning of Georgianna McNeese, Ingelborg Hallgren, Nellie Ringer and Ina Tucker.

DR. AND MRS. McCURE HONORED AT DINNER

One of the delightful affairs of Wednesday evening was the courtesy dinner given for Dr. and Mrs. Walter E. McCure by Dr. McCure's class of the First Presbyterian church and attended by the members of the congregation.

Dr. and Mrs. McCure will leave Monday of next week to attend the general assembly at Denver, Col., which convenes from May 21 to June 1. While on this trip the McCures will visit in Cleveland, O.; St. Louis, Mo.; Salt Lake City, Utah; Tacoma, Wash., and Hollywood, taking their annual vacation trip in conjunction with business.

The dining room of the church was most attractive with trillium, lilacs and blossoms artistically used about the room. The tables were arranged in the form of an "M" for McCure, with the various sections of the letters decorated in different colors, using yellow, orchid, red and rainbow hues. The tall tapers in the different shades were the only lights used during the serving of a delicious menu, and this glow brought out the full beauty of the table setting.

Mrs. Lillian Butcher Stambaugh and Mrs. Madeline Rugh, accompanied by Thomas Webber, gave a musical program and the address of the evening was made by Dr. McCure.

The arrangements for this most brilliant event were under the direction of Mrs. Arthur Foster and Mrs. Maurice Kelley and their efficient aides.

CANTER BRIDGE CLUB ENTERTAINS

Mrs. C. E. Kennedy was a pleasing hostess Wednesday evening when she entertained members of the Canter Bridge club in her home on Harrison street. The early hours were devoted to a contest in cards, prizes for honors going to Misses Mary Whalen and Ethel Houk.

At an appropriate time the individual tables were re-arranged and cleverly appointed in tones of yellow and white, where a delicious menu, served by the hostess, was enjoyed by candle light. Covers were laid for all associates and one special guest, Miss Muriel Johnson.

On Wednesday, June 8, Miss Whalen will receive the girls at her home, 101 South Ray street.

A. G. P. Club
The A. G. P. club members met last evening at the home of Mrs. Matthew Edol on Shaw street. The leisure time was spent informally with cards, prizes going to Mrs. John Murdock and Mrs. Cecil Gordon. Special visitors were Mrs. Edward Davis and Mrs. Harry Rhoads, the former winning the hostess gift.

PRETTY WEDDING AT ST. VITUS CHURCH

A very pretty and most elaborate wedding took place this morning at St. Vitus church at 9:30 o'clock when Miss Helen Marie Fazzone, daughter of Mr. and Mrs. Michael Fazzone of 1024 South Mill street, became the bride of Frank Maciariello, son of Mr. and Mrs. Nick Maciariello of 745 South Mill St.

Before an altar of white enshrouded with palms, ferns and standards of the seasons choicest flowers, solemn high mass was celebrated by Rev. Fr. N. DeMita, pastor of the church, assisted by Rev. Fr. Donatelli and Rev. Fr. Vitale, in the presence of relatives and friends numbering six hundred.

The main table, centered with a large cake of several tiers and topped with a miniature bride and groom, and other tables, decorated in pastel tones and bouquets of flowers further expressed the wedding appointments.

JUST A REMINDER

IN the absence of legal authority, indeed, in direct contravention of the provisions of the law, a Democratic administration lent \$2,521,121,825 to European countries after hostilities had ceased. Prior to that time a Democratic administration had lent something above 9 billion dollars to European countries, and in defiance of the plain letter of the law had accepted as evidence of the loans merely the I. O. U. of the various governments instead of their national bonds. If no money had been lent after the Armistice and if the money lent during the war had been secured as the law required it to be, there would have been no international debt problem so far as this country is concerned. But there was such a problem, for the reasons above stated, and Republican administrations were obliged to make the best settlement they could with European debtors. The best settlement was to wipe off the books more than half of the outstanding obligations and to accept acknowledgment of indebtedness in due form for the remainder. But now comes Governor Alfred E. Smith, the defeated Democratic candidate and proposes that we "forget" even the comparatively small amount our European debtors have promised to pay, for a period of twenty years, in the meantime crediting them 25c on their debts for every dollar they spend in American markets, a proceeding which would entirely cancel the debts before the twenty years were over. If Mr. Smith had been elected president in 1928 and had made this same recommendation, he probably would have had influence enough to make it effective, and the Democratic party would thus have completed its perfect work of making American tax payers foot the whole bill for the European war. In view of the record, it calls for singular audacity for Democratic leaders to complain about Republican handling of international debts.

OUR RESERVE OF UNEMPLOYMENT

Many writers are now attempting to solve our troubles, by advocating unemployment reserves as a form of insurance against bad times. Fire insurance is a good thing but it does not prevent the loss from bad construction; it merely distributes it.

In the same way, unemployment reserves cannot lessen the loss that results from unsound national and business policies; they merely try to distribute the burden of the loss.

We have in fact by such unsound policies been accumulating reserves of unemployment, instead of reserves against unemployment.

In the six years from 1924, (when we were supposed to have restricted immigration) up to 1929, when immigration was temporarily checked, we have been letting in Europeans at the rate of over 150,000 a year and have admitted Mexicans and West Indians without any numerical restriction whatever. That was a period of what is known as technical unemployment in the United States, when Americans by the hundred thousand were having to seek new jobs owing to industrial changes, and we had more of our own labor than we could use.

None of these foreigners were brought in to compete for jobs and insure an unemployment reserve; and while times were flush we could stand the cost without anybody benefitting except certain exploiters of cheap labor. This class of employers like to hire foreign labor in blocks fresh off the dock or recruited from over the border. They hire them when demand is good and dump them promptly on the community when business slackens. Then they start after new foreigners when business picks up again.

Thus has an unemployment reserve been built up and now it is in full operation. Massachusetts is lugging over a hundred thousand admitted since 1924, in spite of textile depression which threw out thousands of native Americans. New York and Pennsylvania between them have taken on at least four times as many. Further west in addition to Europeans, Mexican colonies are to be found everywhere up to the Canadian line, while further south whole industries have been manned by Mexican labor displacing American labor in field and shop by their competition. All this has contributed to the gratification of a limited number of exploiters of cheap labor, and has swelled the reserve of unemployment, for which we are now paying.

There is a demand that this shall not happen again as soon as business starts up. A bill has been reported to the House cutting down European quotas and extending quotas to immigration from the western hemisphere.

The House has done this, but Senator Hatfield's Committee on Immigration for the Senate has been quiescent except for a few measures letting in certain foreigners and the United States Chamber of Commerce is becoming active in opposition. In this it does not represent the increasing body of our employers who prefer to use brains and organization instead of the cheapest labor to be found; who are now taxed to carry the reserve of unemployment that has thus been built up.

Is this to be another case of the organized few getting the better of the unorganized many?

It is certainly a case where we all need to keep track of what our representatives in Washington are doing, or are failing to do, especially during the next few weeks. Congress has been very liberal and obliging in passing a number of bills to let in certain classes of foreigners. It is now time for them to do a little something for the ordinary American.

EXPLANATIONS THE VOGUE

Everybody's business just now seems to be adopting resolutions, disseminating information and writing to the newspapers in defense of one's particular vocation or avocation. The number of "defensive movements" would indicate a saturnalia of fault-finding from which few, if any, occupations or professions are escaping.

The "big butter and egg men from the West" were the first to revolt. By solemn resolution they publicly disclaimed credit for buying diamonds, automobiles and fur coats New York chorus girls are reputed to possess.

Then the models who "show-off" the gowns in Fifth avenue shops organized to prove the fallacy of the universal belief that clothing models are jazz mad goldiggers, whose chief aim in life is marrying a millionaire.

Even politicians have been telling the constituency, which "must be served," that they are not politicians at all, but high-minded, self-sacrificing statesmen consecrating their lives to the public service.

One by one the old, time-honored illusions are being shattered. But this should not be cause for concern for an illusion-loving nation. The imagination of the few and the credulity of the many are co-operating in the manufacture of new illusions faster than the iconoclasts and unjustly accused can shatter old ones.

All Of Us

Sleeping on Rocks
Making Puns
The Crowd Within Us

By MARSHALL MASLIN

I heard myself complaining that my bed was uncomfortable and, because of that, I could not sleep. . . . And then I remembered a night of long, long ago. That night was black, with red flames in it; it was a sultry night, and nature was still, as if nature wished to emphasize the noisiness of man: it was the night before the American attack at Soissons. . . . With my clothes on, I slept beside a road that was busy with traffic of war. Slept soundly, slept dreamlessly, hardly moved in my sleep. . . . And when I woke in the sullen dawn, I saw I had slept well on a flat pile of rocks used for road mending. Without mattress, pillow, sheets or blankets—I had rested.

So, thinking of that other night and that other bed, I fell asleep in 1932—and rested well.

We should have a Society for the Defense of Puns. . . . As it is now, if a man makes a pun he is jumped on at once. If he dares to make a play on words, if his mind hops lightly from this to that, dives deeply into memory and comes forth with a silvery wringing pun in its beak, some one is certain to sneer and remark that the pun is the lowest form of wit. . . . Oliver Wendell Holmes is responsible. He treated the punsters most ignobly in his "Autocrat of the Breakfast Table." He said a pun is an insult to the person you talk with. He did considerable deep raving on the depraving punning habit. He inferred that man's laughter when he makes a pun is equivalent to manslaughter. And he wrote deliberately that "people that make puns are like wanton boys that put coppers on the railroad tracks"—to upset the other fellow's train of thought.

I'm not ashamed. I'll join any Society for the Defense and Propagation of Puns. . . . But I'll attend no meetings to make puns. Because deliberate puns are as pathetic as dead butterflies stuck on pins.

A man asked me if I remembered the days when the lads were peepers. Could I forget them? Pegged at the hips, very small at the ankles. In our set, if a young man's trousers were any larger than fourteen inches at the ankle—if he could take them off without taking off his high buttoned shoes first—he might as well have been dead. He wasn't in style! There was no deeper disgrace than to be OUT of style, no greater joy than to be IN it.

Yesterday you lost your temper and sent sharp words flying through the air. Today you wonder who that cantankerous fellow was who lived in your skin yesterday and had such little self-control. Today you're mild, well-mannered fellow who thinks before he slashes. . . . A crowd of people lives within you, and some are strangers to you.

GOOD PLAYS AND THE COST

On the first night of a new production, Oscar Hammerstein was heard to observe that a play is like a cigar.

"How's that?" asked a friend.

"Well," was the ex-cigar-maker's explanation, "if it's good, everybody wants a box; if it's bad, no amount of puffing will make it draw."

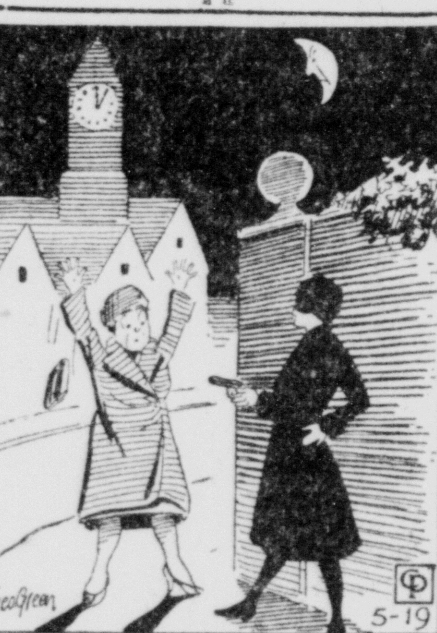

Writing about Plays, there is "The Miracle."

Among those who were queuing up for the advance booking on the occasion of its last presentation in London, England, were a Scot and a Jew. When it came to the Scot's turn, he asked for twelve orchestra stalls, and he paid with a ten pound note, which fact staggered the Jew.

"Come along, sir," said the box office man to the Jew, "how many seats do you want for 'The Miracle'?"

"None," he replied, "I've just seen it."

Dear Friend: While perusing your educational and entertaining column I came across a question asked by your contributor M. M. W. asent the origin of "Auld Lang Syne." As a matter of fact, the words have been used since time immemorial in Scotland to designate the past, and as for the immortal ballad, written by Robert Burns, the plowman poet, there are two distinct versions, according to the memoirs relating to its composition. The poet transcribed the song for a Mrs. Dunlop in a letter dated 1788 and here and there scholarly collectors of Burnsiana ascribe the song to a previous poet, vaguely referred to as an old

man, presumably the veterans of a memorable bloody battle of European history.

Previous to my brief sojourn in the highlands of Scotland I was always under the impression that the inspiration for the song was the parting of comrades after the battle, a mere remnant of a still famous regiment. At the time of the presentation of "Auld Lang Syne" the poet pretended that the song was inspired by the whisperings of a minstrel of ye olden time, saying: "The sang was never in print, or even in manuscript, 'til I took it down on a bit o' paper, after the auld man had dune singin' it."

This simple statement dealing with The Music of the Spheres probably gave rise to a doubt as to its real authorship.

Goldsborough Dollar Plan Received With Skepticism

Effort To Fix Purchasing Power By Control Of Credit And Currency Warmly Debated After Favorable Action In Congress

Earnest public attention is given to the Goldsborough measure passed by a large majority in the Federal House of Representatives, with the purpose of restoring and maintaining commodity prices at the average of the year from 1921 to 1929. The bill, if enacted into law, would place upon the Federal Reserve Board the duty of making the proposed change. Opposition is based partly on the supposed impossibility of achieving the result desired and partly on the effect it might have on the credit of the government. Support of the legislation is on the ground that it might stimulate business.

"It is not quite clear," says the CINCINNATI TIMES-STAR (Rep.) "that the Goldsborough bill has done anything more than give the money changers of other countries a joy ride at the expense of the dollar." The Times-Star also comments "Should the Senate look with favor upon this bill which, if it means anything at all, means currency inflation, the dollar will experience another sinking spell, as foreign banks withdraw their earmarked gold. No doubt we could stagger along even if they did, the wise provisions of the Glass-Steagall bill acting as a bulwark against gold raids. The question is, how many of such crises can we experience with comfort? How long will even the soundest of currencies withstand the pounding of the inflationists at Washington?"

"The bill may be another one of the 'psychological' measures, designed to restore confidence," according to the WASHINGTON EVENING STAR (Ind.) "by telling the banks of the nation that the present policy of the Federal Reserve will be continued indefinitely. But with congressional gyrations over revenue-raising and budget-cutting freshly in mind, the fact that the House of Representatives within a few hours and under suspension of the rules blanketing mature deliberation will dispose of a bill that practically takes the lid off Federal Reserve practice and gives it the sky as a limit might have a psychological effect exactly the opposite of what is desired."

"In demanding an enforced return to former prices," states the HOUSTON CHRONICLE (Dem.) "Congress is demanding the impossible of the gold-based dollar." The BOSTON TRANSCRIPT (Ind. Rep.) asks "if the people of the United States do not recall the losses suffered by the Farm Board in striving to raise wheat prices by fiat" and concludes that "even as a mere declaration of policy, the sober sense of the country cannot desire further endorsement of such results." The CLEVELAND PLAIN DEALER (Ind. Dem.) holds that "the combined resources of the Treasury and the Reserve banks would be insufficient to restore and to maintain the price level of the boom period for even a day." The Plain Dealer adds: "In its current security buying operation the Federal Reserve System is doing everything in its power to encourage the use of credit and to turn the downward courses of security prices. The aim is not to restore the price level of a decade ago or of the boom period but to stay a decline which now extends over nearly three years. It is not yet clear that the Reserve will be successful even in this respect."

"The House of Representatives wins the prize for ordering up the most remarkable magic performance ever commanded in formal official decree" declares the JERSEY CITY JOURNAL (Ind. Rep.) The DAY-TON DAILY NEWS (Ind. Dem.) contends: "When politics assumes power to fix the price of the dollar, it assumes a power which politics has seldom handled wisely. England, thus far, has stabilized the pound at about as proposed by Congress. In England as in America, there will be interests seeking profit by manipulating money up or down. Should we be fighting political campaigns on those issues, then we bet!"

"We can have no fresh prosperity until confidence returns," asserts the PROVIDENCE JOURNAL (Ind.) with the query: "How can the higher prices which the Goldsborough bill supporters say they want, be

CORRECTING ERRORS

It is not always a kindness and a favor to fail to reprimand or censure the person who deserves it.

The fact that you do not exercise your right to make a complaint causes the person offending to minimize his actions.

Every person mistakes at some time, but an inexcusable error merits a reminder by the one in position to do so.

This should be done in the right spirit with no more emphasis than the conditions warrant.

It should not be presented in heated, irritable, antagonistic style, unless the offense be of too frequent occurrence.

One of the reasons why bosses make so many errors themselves is that they do not have to report to anyone but themselves and they may be too lenient in their own self-acquittal.

They pass over their own mistakes lightly but are most humiliating in their denunciation of others' mistakes.

Of course there will always be errors in judgment and there will be the careless, thoughtless workers who make mistakes.

But the latter should not be permitted to continue their careless work—they should get a "jacking up" when they need it.

Byrd Is Asking For Donations To Second Voyage To South Pole

Rear Admiral Byrd Hopes To Make Great Expedition On But "Shoestring"

Already Has 100 Tons Of Supplies Ready To Pack Aboard Polar Ship

(This is the second of a series of two articles on Rear Admiral Richard E. Byrd's preparations for a new dash to the South Pole.)

By GENE K. LORICK
International News Service Staff Correspondent

BOSTON, May 19.—The second venture to the barren lands of the South Pole by Rear Admiral Richard E. Byrd, will be made "on a shoestring."

The dauntless explorer, who already has conquered the airways over the North and South Poles and the watery wastes of the Atlantic, told International News Service that his second expedition to Little America and the South Pole, will cost "almost nothing compared with the previous expedition."

To Get Donations

Right now he is busily engaged in sending hundreds of letters to manufacturers of clothing, food and all the hundreds of other accessories which go to make up a well-planned expedition, requesting donations of their products.

"All those able to donate, are asked to do so, with their remuneration consisting of what their advertisement will be worth," he said.

All my outfitting is being done from Boston, and already I have over 100 tons of supplies of all sorts at the Charlestown Navy Yard.

"Clothing and food are very important items to be considered. Pre-

vious expeditions to Arctic regions were very costly in human life (not the Byrd expedition which returned without the loss of a man) due to improper food balance which causes scurvy.

"We are experimenting and investigating to determine the best way of preventing that trouble by including enough vitamin C foods. We are investigating powdered citrus fruits to see if those fruits in powdered form retain their vitamin content in sufficient quantity to prevent scurvy. We are experimenting with oranges, lemons and grapefruit. We may also take tomato juice.

Too Cold For Germs

"Everything we will take will be frozen down there, as the South Pole is many degrees colder than the North Pole. The ice age is still in full sway down there. Temperatures of 90 degrees below zero are not at all uncommon."

Rear Admiral Byrd was asked if he thought that human beings had ever lived in the frozen regions of the South Pole, similar to the Eskimos found in the North Arctic regions.

"I doubt if people ever lived there," he replied, "although it is possible. It would be a great discovery if we could prove that human life once existed there. It might have."

Byrd described how well his crew withstood the rigor of the weather, by saying that none of them ever suffered a cold. "There is no fear of contagion of disease down there, because no bugs could live in that extreme temperature. Cold weather seemed to make us immune to colds. I love it. The air is so pure that it invigorates you."

Anxious For Start

"I'm anxious to be off again," he continued. "Just how long we shall stay there is problematical. We may be able to complete our work in one year, or in 18 months, but we will have to plan on staying two years. We may want to get right in and freeze our boat in. We can't tell that in advance."

On the first trip, Rear Admiral Byrd discovered Marie Byrd Land, named in honor of his wife, charted the range of Rockefeller Mountains, and explored a 40,000 mile stretch, which he claimed in the name of the United States.

Girl Scouts To Camp In August

New Castle Girl Scouts Looking Forward To Outing At John Phillips Camp

As mid-summer approaches, New Castle Girl Scouts turn their thoughts to "Camp." It is a subject that is becoming more and more obtrusive in the conversation at troop gatherings. Pictures of curling smoke from cooking fires, trails winding through green woodland, stars and moon shining down on rows of white canvas tents, are easily formed in the imaginations of the eager Scouts.

August 1 to 15 are the dates, the Scout Director announces today. There will be two one week periods for which the Scouts can register. Or, if they desire, they may register for the entire two weeks period. The John Phillips Boy Scout camp near Rose Point will be used.

As is the usual practice, a special "Pioneer Unit" will be formed at camp. Girls in this unit will stay for the entire two weeks, will follow a separate program of activities designed for older Girl Scouts.

Further information in regard to this summer's Girl Scout camp will be given at the Health Court which is to take place this Saturday afternoon at the First Presbyterian church.

DO YOU INHALE?

... wonder why cigarette advertising generally avoids this question?

ONE of the mysteries in cigarette advertising has been the apparent fear of the word "inhale." It seems rather foolish—for everybody inhales—whether they realize it or not . . . every smoker breathes in some part of the smoke he or she draws out of a cigarette.

Think, then, how important it is to be certain that your cigarette smoke is pure and clean—to be sure that you don't inhale certain impurities.

Do you inhale? Lucky Strike has dared

to raise this vital question . . . because when you smoke Luckies your delicate membranes get the protection no other cigarette affords. All other methods have been made old-fashioned by Luckies' famous purifying process. Luckies created that process. Only Luckies have it!

Do you inhale? Of course you do! So truly this message is for you.

Glimpses Of Nature

OWEN PENFIELD FOX

Spring is here, the sky is bright with freshness, and the sunshine is spinning bars of gold. Sweet winds are stirring the leaves of the trees, where birds have built their nests. The fresh smelling soil and green meadows bedeck themselves with wild flowers.

Trailing arbutus, violets and dogwood. And scattered throughout the lawn we will find the dainty Quaker bonnets, that lift their faces to the winds that carry the song of birds.

And up in the clean blue of heaven is the playground of the swallows, where white clouds sail by in silent grandeur. Oh! dear readers, at this new season go out and get some knowledge of the birds and animals that have the freedom of the out-of-doors. Use your eyes to see its beauty, train your ears to catch the many sounds of the wild creatures as you tramp through the fields and explore patches of woodland.

It is natural for us at a new season, especially spring, to be enthused, for at this time we have a pent-up feeling that tugs at our hearts, our very souls pulsing with life at the newness and beauty of it all. The same feeling about spring enters into the life of the wild creatures of nature. They, too, let the world know that they rejoice in the new season. The song birds flaunt their gorgeous colored feathers, the four-footed creatures scurry about the woods quicker, the unexpected actions of the rabbit, the woodchuck and the coon. The fox

squirrel as he circles a tree, then jumps to a rail fence, running zigzag, then stops his big bushy arched beautiful over his back, then he folds his little hands in worship to the beauty of his surroundings. Winter is gone! Spring is here! Let there be rejoicing among all living things.

Recently I went adventuring in the outdoors at night, to where a stream stretched out, like a silver ribbon in the moon's reflection. The leaves of birch and oaks stirred faintly as if in protest to the loud grumbling of the frogs. The repeating cry of a night hawk was answered from out the woods by the

quick call of a whippoorwill, many sounds came to me from out the night, some near at hand, others far, and at times they all drifted away like will-o-the-wisp. I followed this stream for a long way, and many times its flow was disturbed by the splash of a frog. Cat tails were plentiful in the marshy places, and at times they stirred mysteriously.

I found many pitcher plants as I went along, their deep reddish purple blooms easily identified in the moonlight. The pitcher plant is one of the most interesting growing things found in the open. This plant is always found in swampy places. The pitcher plant is so called because it is always half filled with water. Inside the plant you can always find small insect life that have been drowned, for as the pitcher's rim is lined with hard, stiff hairs, the pitcher plant absorbs the decayed bodies of the insects that are drowned within its watery cup. Many species are of bugs and beetles with hard shells and cannot be disposed of, so you will see many strange prisoners within the plant walls.

After a lengthy study of the pitcher plant the rays of my flashlight played on the nest of a marsh wren. I spent quite a time trying to locate one with a nesting bird, but was unsuccessful. I had gone quite deep into the woods and when I had decided to return home the weird call of a loon came to me, no doubt from a disturbed bird.

One can get many a thrill in the woods at night, but it is in the daytime that a nature lover makes the most discoveries.

Some News, Some Views, But
Mostly Just Observations
Of Interesting Things
Around New
Castle.

A lot of badged individuals around the Castle last night and they'll be there today and part of tomorrow. The motor convention got underway, with the state fairly well represented.

Figuratively there was a smell of gas and oil and a roar of motors all evening in the lobby. It was a family reunion, a lodge meeting and a kaffeeklatsch combined.

When Mayor Mayne delivered his address of welcome this morning he had another mayor out in front listening to him. Mayor Hoeveter of Harrisburg is a director of the P. M. F. and has been mayor of Harrisburg so long that elections down there are merely reappointments. He never misses a P. M. F. meeting.

Another regular customer of the conventions is Ben G. Eynon, commissioner of motor vehicles. In one hour last night he answered a thousand questions concerning tags, licenses and rulings of the department.

Today at noon the convention struck a serious note when the memorial plaque was presented to the Jameson Memorial hospital in memory of the late David Jameson.

Many of the wives of the delegates are present. Their idea is that "momma goes where poppa goes, or poppa don't go at all". In their honor the ladies of New Castle are putting on a bridge tea this afternoon in the Field Club.

Our fair city seems to have broken out in a rash of gardening. Up on Logan avenue there is one of the bigger and better gardens of the city, handled by three young men in that district. Golf seems certain to take it on the bridge work this summer when chaps of that sort make an acquaintance with the hoe and rake.

Swick Stands For
National DefenseOpposes Economy At Expense
Of U. S. National
DefenseBy ARTHUR C. WIMER
(Special Washington Correspondent)
New Castle News

WASHINGTON, D. C., May 19.—Representative J. Howard Swick joined with the coalition of Republicans and Democrats this week successfully opposing economies at the expense of national defense.

In writing the annual War Department supply bill, the House Appropriations Committee reduced army funds extensively and called for the curtailment of several military activities. A coalition amended the bill, however, so as to permit the continuance of these activities, and Representative Swick lent his support to this coalition led by Republican stalwarts.

One of the amendments for which Swick voted will cost the country more than two million dollars a year, according to Representative Crisp, acting chairman of the House and Ways and Means Committee. Under present law, reserve officers are paid while in summer camps. The Appropriations Committee wrote the army bill as to provide that such officers would not be paid during the summer training, but the coalition was successful in striking out this provision and amending the measure so as to pay the reserve leaders.

Congressman Swick voted for the amendment restoring the reserve officer's pay which amounts to more than two million a year according to Crisp.

It will be remembered that Mr. Braham was bass soloist at Highland church a few years ago.

Shape Plans For
Social FunctionsTo Stage Gala 'Class Day' On
May 24, Dinner-Dance
On May 31

Rounding out a lengthy month's job, the June graduating class of the Senior High school, led by its president, Robert Alley, was today completing plans for various commencement social functions which will occupy the final days of school.

The past month has been spent in working out preliminaries.

On May 24, the date set for Class Day, the seniors will stage an indoor program as a comic sideshow for the student body and also a class picnic at some point not yet selected.

The night of May 31 will bring the annual dinner-dance of the departing group, possibly in the ballroom of the Cathedral. Plans have not definitely been completed.

Baccalaureate falls on May 29, in between the two events and the formal commencement on June 3.

President Alley, with his committee on invitations, Russell Kawa, Mary Jane McClintock and Mildred McClelland, and others, was kept busy Wednesday distributing formal commencement invitations to the different members of the class. Seniors will mail them out to friends shortly.

Campbell Returns
From ConferenceReports An Important Change
In Rules As Affecting Lay
Members Of Con-
ferences

Prothonotary R. M. Campbell has returned from Atlantic City where he has been attending the general conference of the Methodist church. Mr. Campbell reports a large and enthusiastic meeting.

One of the important measures passed was one which gives laymen the right to sit in as regular members of annual conferences, such as the Erie conference of this district.

Heretofore the minister of each pastoral charge was the only one entitled to vote on constitutional amendments and other matters. Under the new rule one layman from each charge will also have the right to vote.

Weather at Atlantic City has been unusually cool during the sessions, members being obliged to wear overcoats nearly all the time.

Mr. Campbell returned by way of Great Barrington, Mass., where he visited his nephew, Dr. Edward Canby, formerly of this city.

Gall Bladder Operation

An old German physician, Dr. H. E. Hildebrand, many years ago, was severely suffering from what appeared to be a Gall Stone Trouble. He was frequently subject to colic attacks, gas pains, indigestion, pain in sides, back and around the liver. Rather than submit to an operation he decided to treat his own case. So successful was he in his efforts he prescribed the same treatment to other sufferers. The amazing results they reported is convincing evidence of the merit of this preparation. Through the Dr. Hildebrand's Laboratories, Dept. 281-B, 155 N. Green Ave., Chicago, Ill., sufferers from Gall Stone, Gall Bladder and allied Liver and Stomach ailments everywhere may obtain a test of this splendid treatment free by writing to the above address at once.—Adv.

Fifty Thousand Gallons Of Soup Given This Year

Mayor's Committee Will End Distribution Of Soup To Unemployed Families

Amount Given Out Has Dropped From 550 Gallons To 50 Gallons Per Day

Fifty thousand and seventy gallons of soup, enough to feed 400,500 persons at one time, have been distributed during the past five and one half months by the Mayor's Relief Committee to needy persons of New Castle, it was revealed today by Arthur Merget, purchasing agent at the Jameson Memorial hospital, who has been in charge of the making of this soup for the committee at the hospital.

Figuring that a pint of soup furnishes one meal, the 50,070 gallons would have made that many meals, or it would have filled ten of the huge 5,000 gallon gasoline trucks which traverse our highways.

Plans have been made by the Mayor's Relief Committee to discontinue the distribution of the soup with the advent of warm weather, the demand having dropped from a peak of 550 gallons to fifty gallons at the present time.

Many Are Benefited

Distribution of the soup has been in charge of the Salvation Army who have delivered the soup to 25 stations scattered over the city. In addition, the men working on the city projects under the Mayor's Relief Committee have been given soup for their lunches. Those who have been working on the park project across from the hospital, having been fed in the dining room in the basement of the hospital.

It is believed that around 15,000 people have received soup at various times during the past winter.

Two people were employed in the making of the soup, two huge caldrons having been furnished by the Carnegie Steel Company for this purpose. The soup was made in the

kitchen of the hospital, and each day at 2 o'clock in the morning two men started out on the project. First they would make the broth, and then add the stock, mixing the two until a savory, palatable concoction had been devised.

Not a single complaint was heard about the soup this year, a variety being furnished in the menu which was never the same on succeeding days.

Menu Varied

On Monday, the menu was slum, which was made up from 100 pounds of beef, fifty pounds of rice, three bushels of potatoes, forty pounds of macaroni, 100 pounds of cabbage, one bushel of carrots, fifty pounds of onions, fifty pounds of peas, fifteen pounds of salt, one pound of pepper, twenty five pounds of beans, two pounds of sugar, and one bushel of turnips.

Tuesday's menu was rice soup, consisting of 100 pounds of meat, 175 pounds rice, three bushels of potatoes, 100 pounds of cabbage, two bushels of carrots, 50 pounds of onions, 10 pounds of peas, 15 pounds of salt, one pound of pepper, 25 pounds of beans, three gallons of string beans, and the same of tomatoes and corn, five pounds of sugar and one bushel of turnips.

Wednesday's menu was bean soup, 300 pounds of beans forming the chief ingredients, with the string beans, tomatoes and corn eliminated, along with the macaroni, and a lesser amount of rice.

Thursday's menu was again rice soup, while Friday's menu was macaroni, with 80 pounds of macaroni forming the base and four gallons of string beans and tomatoes being added, along with the whole beans.

Saturday it was vegetable soup, four bushels of potatoes and the three gallons of string beans, tomatoes and corn being added.

On each day there was the same amount of meat, onions, peas, salt, pepper, etc.

The total for the week showed an average of 600 pounds of meat, 550 pounds of rice, 19 bushels of potatoes, 120 pounds of macaroni, 450 pounds of cabbage, nine bushels of carrots, 300 pounds of onions, 100 pounds of peas, 100 pounds of salt, 6 pounds of pepper, 400 pounds of beans, 13 gallons of string beans and

tomatoes, nine gallons of corn, 22.5 pounds of sugar and four bushels of turnips.

This was only one of the many activities of the Mayor's Relief Committee, and those familiar with the situation, believe that the soup distribution was one of the biggest activities carried out during the winter.

A great amount of this soup went to furnish hot lunches for children in the schools.

NEW SHREDDED BISCUIT EXTRA RICH IN VITAL FOOD ELEMENTS

Laboratory Certifies the Improved Kellogg's WHOLE WHEAT Biscuit

Before the new Kellogg's WHOLE WHEAT Biscuit was introduced, the Kellogg Company submitted it to the Medical Arts Laboratory of Philadelphia, which found it so rich in food value that every package could be certified.

This means that mothers can now know definitely that their children are getting a well-balanced food whenever they serve the new Kellogg biscuits and milk—rich in minerals, vitamins, proteins—nourishing and healthful.

And Kellogg's WHOLE WHEAT Biscuits offer many other features. The biscuits are "pressure-cooked" by a special process that bakes in the delicious flavor. At the same time, it retains all the valuable food elements of the whole wheat.

Kellogg's WHOLE WHEAT Biscuits are much crisper and tastier because they are toasted a tempting brown on both top and bottom—not just one side. They are baked in a more convenient, economical size. Two biscuits just fit the cereal bowl—and you get 15 to the package.

Naturally, this tasty new biscuit is welcome for breakfast, lunch, children's suppers—any meal, in make arrangements for the supervision and instruction of the children and opening of the playgrounds.

Cochran Bill Is Given Approval

House Judiciary Subcommittee Approves Kidnaping Bill Offered By Cochran

(WASHINGTON News Service)

WASHINGTON, May 19. The Cochran Bill providing the death penalty or life imprisonment for convicted kidnapers was approved Wednesday by the house judiciary subcommittee.

At the same time it tabled the Douglas resolution which would have offered a reward of \$100,000 for apprehension of the Lindbergh kidnapers.

The Cochran Bill gives the Federal Government jurisdiction where criminals have spirited a victim across a state line.

The Douglas resolution was tabled because the committee believed the United States had no jurisdiction and could assume none as the crime was committed wholly within the boundaries of New Jersey.

May Present Police List Next Week

Ten Days Period Beginning Wednesday Given For Physical Test

It is not likely that a list of candidates eligible for police appointment will be certified to city council before late next week, it was learned today.

After the mental test marks had been decided, those who passed the mental examination were instructed to undergo a physical examination within 10 days. The order went out Wednesday, it is reported.

Thirty-three passed the mental test. However not all of them will take the physical test which it is reported costs each applicant two dollars.

It is said that several applicants whose mental test marks were not among the first 12 decided not to take the physical examination as only two eligibles, it is said will be added to the police force.

Work On Bridge
Is Being Rushed

Coffer Dams Are In Place At Willow Grove; New Approach Being Built

Contractors are rushing work on the new bridge over the Mahoning river at Willow Grove. The excellent weather of the past few days has increased the activity and much progress has been made.

Many truck loads of fill have been dumped on the runway this side of the bridge site. The fill is hauled from an embankment located about a mile north of Willow Grove. A fleet of rollers have been kept busy packing down the road-bed as it is dumped there from the trucks. Cement work will not be done until the new bridge is completed.

The roadway will be 18 feet wide and will be 13 feet above the old road. It will be higher because of the proposed canal which may be built in the Mahoning river bed.

Coffer dams have been erected in the river stream and it won't be long until cement will be poured.

ST. MARGARET'S

A card party will be held in the gymnasium hall, corner of Second and Clayton streets, this evening. Games will begin promptly at 8 o'clock daylight savings time.

BERMS REPAIRED

Berms along the stretch of highway from here to Willow Grove are in good shape, having recently been repaired by the highway department. Although contractors are busily engaged in the job of erecting a new bridge at Willow Grove over the Mahoning, traffic is not impeded in any way. The old bridge and approaches are being used. Traffic on this route to Pittsburgh is very heavy.

MORE PARK WORK

The city is doing excellent work with the park at North Liberty St. and Darlington avenue, and it will be in good shape soon. Men with lawn mowers, spades and rakes were working there Wednesday afternoon.

Couzens Urges High Tax;
His Fortune Tax Exempt

Senator Admits His \$40,000,000 Is Invested In Municipal And Other Public Bonds

WASHINGTON, May 19—Senator James Couzens (R) Michigan, today confirmed the report that he pays a virtually negligible income tax on his fortune, which is estimated at \$40,000,000 because the greater part of it is invested in tax-exempt securities.

Senator Couzens was the author of the amendment to the pending

billion-dollar tax increase bill proposing to boost income taxes to the war-time level.

During the debate on the tax bill fellow senators made veiled references to the fact that Couzens' fortune would be exempt from the high income rates. Since then an editorial attack has been launched and Couzens now is meditating the staging of a counter attack from the Senate floor.

The Couzens fortune resulted from the success of the Ford Motor Co. in which he was a large stockholder until bought out by Henry Ford. That was before Couzens came to the Senate.

Part of the proceeds of the sale of the Ford stock Couzens invested in Detroit municipal and other tax-exempt investments until nearly all of his \$40,000,000 fortune was beyond the reach of the tax collector.

Senator Couzens said today that his investment of the greater part of his fortune in tax-exempt securities dates from his election to the Senate. At that time, he explained, he sold all his bank, railroad and other corporation stocks and invested the proceeds in municipal and other public bonds in order that he might pass upon legislation affecting corporations without being influenced by personal interest there-

He denied that in pressing his war-

time income tax rate amendment he had been influenced by the fact that he would not be affected thereby.

Plaingrove Invests
First Scout Troop

New Castle Leaders Take Roles
In School Program Held
Last Night

Another new troop was added to the roster of Lawrence county Scouting when Troop 40 (Plaingrove One) was formally invested on Wednesday evening at the Plaingrove school by a delegation of scouts and leaders from New Castle Troop 15, under Scoutmaster Sid Smith and with Scoutmaster Commissioner Ron McCoy assisting. Assistant Scoutmaster Ray Zeigler and ten scouts from Troop 15 also participated in the ceremony. Visitors from New Castle were Mr. and Mrs. Earl Davies, Mr. and Mrs. C. G. Matthews, and Mrs. Sidney L. Smith.

The troop is affiliated with the Plaingrove school and is under the leadership of W. L. Rainey, principal of the school; a former scoutmaster and holder of the Eagle rank in scouting. Mr. Rainey is well qualified to serve in this capacity of troop leader, and a capable troop committee has lined up as the sponsoring group. Members are: George W. Masters, chairman; John C. Sankey, C. B. McCommon, Rev. A. L. Dickenson. A troop in this territory should be a big help to the boy life of the school and township.

Senate Defeats Legalized Beer

Despite Growing Demand
For Modification, Sen-

Beer Tax Plan

LARGE MAJORITY AGAINST MOVE

(International News Service)
WASHINGTON, May 19.—Despite
increasing demands for modification
of the Volstead Act, the Senate Wed-
nesday afternoon defeated the Tydings
proposal to legalize 2.75 per
cent beer in order to finance a huge
\$1,500,000,000 public works program
for the relief of unemployment.

The plan, offered as an amend-
ment to the new tax bill, would have
taxed the legalized beer at 40 cents
a gallon. Senator Tydings (D) of
Maryland, estimated the tax would
bring in \$400,000,000 a year, enough
to amortize a \$1,500,000,000 bond is-
sue. The funds raised by the bond
issue would have been used for pub-
lic works.

Before the vote was taken on the
tax, the Senate rejected an amend-
ment to the Tydings plan that would
have legalized 4 per cent beer. It
was beaten 23 to 60. The 4 per cent
plan was offered by Senator Bing-
ham (R) of Connecticut, who has
another amendment still pending to
tax beer while reducing or elimi-
nating a number of excise taxes.

Without even a record roll call,
the Senate refused to put a \$1,000
license tax on wholesalers or manu-
facturers of alcoholic liquors or a
\$100 license tax on retailers. This
proposal was offered by Senator
Trammell (D) of Florida and dis-
posed of by a viva voce vote. He was
given no time even to discuss it.

The vote 60 against and 24 in
favor of Tydings plan.

The roll call on 2.75 beer was:

For Taxing Beer, 34:
Republicans: Bingham, Bingham,
Blaine, Cutting, Davis, Glenn, Keah,
LaFollette, Metcalf, Oddie, Short-
ridge, Walcott, 12.

Accident Victims Return To Homes

None Seriously Injured When
Car Overturns Twice Near
Cannonsburg, Ky.

W. W. Walls, Robert Ratcliff and
S. L. Plaugher of this city have re-
turned from Willard, Ky., where
they were injured in an automobile
accident, Monday morning.

They had taken the body of Mr.
Ratcliff's infant daughter to Will-
ard for burial, and were enroute
home, when a tire burst as the car
was proceeding along the road near
Cannonsburg, Ky.

The car turned completely over
twice, coming to rest right side up.
Mr. Plaugher was thrown from the
machine when it turned over the
first time, being hurled a distance
of about 15 feet. He received a se-
vere cut on the right shoulder and
bruises about the legs and body, be-
ing the least injured of the trio.
Ratcliff, who was driving retained
his hold on the steering wheel. He
suffered a deep wound on his thigh
and was taken to a hospital in Ash-
land, where stitches were taken in
the wound. He also received severe
bruises. Walls who was in the back
seat of the car was taken to a doc-
tor's office where his injuries were
attended to. He was semi-conscious
when taken from the machine, his
right foot had been cut by flying
glass, and he received severe bruises
to his right side.

Mr. Walls' brother-in-law was
called at Portsmouth, O., and went
to Kentucky for the accident vic-

tims and brought them to his home
after which they were brought on
to New Castle on Tuesday.

The public can aid in the search
for the kidnapers of Baby Lind-
bergh by keeping a close check on
\$5, \$10 and \$20 bills.

Remember this. There are NO
"National Bank Notes" in the \$50-
000 which Col. Charles Lindbergh
turned over to the kidnapers; nor
are there any Federal Reserve
notes in either the \$5 or \$10 groups.
All \$5 bills are United States
notes, the \$10 one, U. S. gold
certificates and the \$20 notes are gold
certificates and Federal Reserve
notes. Each bill states on its face
what type of currency it is.

The \$5 notes are of the series
of 1928, the serial number begin-
ning with either an asterisk (*)
or an "A" and ending with an "A."
The \$20 notes also are of the se-
ries of 1928, the serial numbers be-
ginning with an "A" or a "B" and
ending with an "A."

Famous medicated cream brings clear lovely skin

—Nurse tells how

STOP allowing a blemished skin to rob you of charm and popularity!... End skin faults with Noxzema. For years doctors have prescribed this healing, medicated cream even for serious skin conditions. Nurses were the first to use it as a beauty cream and recommended it enthusiastically to their friends.

Here is the reason nurses give: Noxzema is more than an ordinary skin cream! It's a skin medicine!... Noxzema's purifying antiseptics purge the pores of all clogging, germ-breeding matter that causes pimples, blackheads, large pores, oiliness and other ugly skin faults. Its soothing balms heal and refine the irritated skin tissue to carressable velvet-smoothness.

Make your skin a delight to the eye and a thrill to the fingertips—start using Noxzema tonight! Tomorrow your skin will show unclouded natural loveliness struggling through—distressing blemishes, tiny or terrible, noticeably improved.

These are only 8-hour results! Think what wonders can be wrought with daily Noxzema

applications—as a night cream and powder base. Soon admiring glances will turn your way! Bright lights or glaring sun won't scare you... You'll be proud of your flawless skin!

Keep your hands as lovely as your face the same easy way. Hands red and rough from housework or exposure become smooth, soft and white overnight—with healing, beautifying Noxzema. It's greaseless—will not stain.

NORFOLK LEADERS STILL RETAIN FAITH IN CURTIS

Norfolk Citizens Will Not Believe Curtis Was Lying

Friends Feel That Gangsters Have Intimidated Curtis Into Confessing "Hoax"

"SOMETHING MORE" BEHIND CONFESSION

Two Associates Of Curtis Feel That All Of Details Have Not Been Told

By EDWARD B. LOCKETT, International News Service Staff Correspondent

NORFOLK, Va., May 19.—Residents of Norfolk today simply refused to accept as the whole truth the amazing confession of John Hughes Curtis that his "negotiations" to recover the kidnapped Lindbergh baby were the product of a racing imagination.

All along Curtis' two associates here, the Very Rev. Harold Dobson-Peacock, Rector of Christ Episcopal church, and Rear Admiral Guy H. Burgess, retired, have felt there was more to the shipbuilder's tale than he told. Today the entire populace was swept with an inescapably obvious wave of this belief.

May Be Threatened Some believe the erstwhile Norfolk social dictator, who stepped jocularly into the role of chief intermediary for the world famous airman in his search for a stolen son, has hidden something sinister—they don't suggest what—behind his statement the whole wretched affair was a fabrication.

Others hold Curtis is acting as directed at the point of a gun by gangsters with whom they believe he was dealing. Still others think the confession, police inquiry and subsequent stir constitute a blind to throw the Lindbergh kidnappers off their guard in order to further the search for the criminals.

For the sake of the children a campaign is being waged to abolish Nevada's gambling law and we wonder that nobody has thought of remodeling the state's divorce legislation for the same reason.—The Hamilton (Ont.) Spectator.

Miss Stunkard Will Be Entry In Marathon Swim

Dorothy Stunkard

NEW WILMINGTON, Pa., May 19.—Miss Dorothy B. Stunkard, New Castle, instructor in swimming at Temple University, will enter the Wrigley Marathon swimming meet at Toronto, Canada, this summer. An excellent distance swimmer Miss Stunkard will stand a good chance of being among the leaders.

Miss Stunkard, a graduate of Westminster College with the class of 1929, entered college as a non-swimmer. Under the coaching of Jack Hulme, director of aquatics, she not only learned to swim well, but passed the senior Red Cross life-saving tests in her sophomore year, and received the Red Cross examiner's certificate in her senior year. She was elected to the position at Temple following her graduation from Westminster.

Another high honor given Miss Stunkard is that she has been appointed an instructor in swimming and life-saving at the American Red Cross Institute Camp, Brooklyn, N. Y., for the early part of this summer. Miss Stunkard will assist Charles B. Scully, director of the American Red Cross life-saving division.

For the last two summers, Miss Stunkard has had a similar position at Camp Seacrest, N. J.

Urges Bankers To Advertise In Newspapers

Would Have Bankers Of Nation Educate Public To Banking Functions

STATE BANKERS NAME OFFICERS

(International News Service) PITTSBURGH, May 19.—Increased newspaper advertising to publicize the bankers' problems was urged at the closing session of the Pennsylvania Bankers Association today by O. Howard Wolfe, of Philadelphia, cashier of the Philadelphia National Bank.

He said: "Banks heretofore have not been careful enough to educate the public into the purpose and functions of banking. The result is that when people become alarmed there is a concerted demand made for the payment of deposits which had been invested and loaned in accord with proper banking functions."

(International News Service) GENEVA, May 19.—The League of Nations council today granted the Kingdom of Iraq freedom from the mandate held by Great Britain. The British mandate will formally end when the Iraq parliament ratifies the league council's recommendations, consisting of six guarantees.

The recommendations call for racial, linguistic and religious equality, equal treatment for minorities, safeguard for foreigners, freedom of religious missions and maintenance of the financial rights contracted during the mandate. Congressmen To Play Baseball For Unemployed

June 4 Is Date Of Annual Classic Of Democrats And Republicans

(International News Service) WASHINGTON, May 19.—The capital's biennial congressional baseball game will be held for the benefit of the unemployed on June 4.

Early practice indicates the Democrats have a slight edge, but are prone to short windedness. Their Republican opponents profess to doubt these statements on the ground that no Democrat is short winded with an election at hand, especially a presidential year.

Republicans will bat first this year, as they refused to play without this concession. Two years ago they allowed the Democrats that privilege. The latter acted like a bunch of politicians and continued to bat until the game was called on account of meal time.

The Kelly family is represented on both teams, Pennsylvania pitching for the G. O. P. and Illinois playing left field for the Democrats.

They helped me so I purchased more and after using two boxes of Cuticura Ointment, together with the Cuticura Soap, I was completely healed." (Signed) Miss Anna Suja, 207 E. Ellwood Trackers Swamp Grove City In Easy Dual Meet

Run Up Imposing Score Of 88 To 25; Take All But One First Place

ELLWOOD CITY, May 19.—The Ellwood City-Grove City dual meet at the latter town Wednesday served as a nice tune-up for the locals who easily took the meet with an imposing score of 88-25. The Lloyd men took first place in all but one event, the broad jump.

In the mile run, shot put, javelin, 220 low hurdles, discus and the mile relay, Ellwood took all places. As a whole there were no impressive times made because of the lack of competition. Nevertheless the meet furnished two surprises and two warnings for W. P. I. A. L. contenders.

The highlight of the afternoon was when Mike Paal heaved the shot 46 feet 10 1/2 inches. The two throws previous to this were all over the 45 feet 6 inches mark, proving that his last throw was no fluke. This is exactly 9 1/2 inches better than Webster's winning heave at Geneva.

Captain Joe Welsh flashed his warning to O'Dile Pryor when he clipped the century in 10.1 seconds. Another impressive showing was the 220 low hurdles which Strouse made in 26.1 just one-tenth of a second slower than the state record set by Mike Dunn two years ago. Strouse won the W. P. I. A. L. hurdle race last year.

The summary:

Track Events.
100-yard dash—Won by Welsh, Ellwood City; second, Erskin, Grove City; third, Mundo, Ellwood City. Time—10.1 seconds.

Mile run—Won by Lincoln; second, Cusato; third, Crowe, all of Ellwood. Time—5:1.

440-yard dash—Won by Johnson, Ellwood City; second, Moore, Grove City; third, Murphy, Grove City. Time—54.4.

880-yard run—Won by Wilson, Ellwood; second, Leggerio, Ellwood; third, McCarl, Grove City. Time—2:14.

220-yard—Won by Welsh, Ellwood; second, Strouse, Ellwood; third, Erskin, Grove City. Time 23 seconds.

220 low hurdles—Won by Strouse, Ellwood; second, Kuben, Ellwood; third, Cavalier, Ellwood. Time—26.1 seconds.

Mile relay—Won by Ellwood City (Wilson, Barnes, Johnson, Lincoln). Time—3:47.1.

NEW BRIGHTON, Pa., May 19.—Three persons were injured when two automobiles collided on the overgrade bridge on the Wampum-Ellwood City road.

Carl Gray, 43, of New Galilee, driver of one of the cars, was brought to the Beaver Valley General Hospital here suffering from a cut in the arm, an injured hip and minor bruises.

Mothers-Daughters Gather At Banquet

ELLWOOD CITY, May 19.—Seventy-six mothers and daughters were present at the annual Mothers Day dinner held last evening at the Wurttemberg United Presbyterian church. This affair is sponsored each year by the members of the Mary Braden Circle.

Festivities were started at seven o'clock by the serving of an elaborate dinner at four long tables prettily adorned with baskets of dogwood and a color scheme of lavender and green was cleverly carried out in the menu appointments and decorations. The invocation was given by J. J. Campbell of Grove City.

Miss Frances McElwain gave an appropriate toast to the mothers, while Mrs. R. H. Kirk responded for the mothers in a fitting manner.

A special feature of the evening was an address given by Mrs. J. J. Campbell of Grove City, who is a

missionary in India, but is now spending a vacation furlough in this country. Mrs. Campbell chose for her subject "Heroes of Faith," and she took for examples characters whom she had met in her work in

George Washington
No. 82. Republicans And Federalists

THERE WERE MANY AMERICANS IN 1790 WHO WERE OPPOSED TO WASHINGTON'S POLICY OF INCREASING THE POWERS OF THE NATIONAL GOVERNMENT. THEY CONTENDED THAT SUCH A STEP WOULD JEOPARDIZE THE RIGHTS OF THE STATES AND THE INDIVIDUAL CITIZEN AND MIGHT LEAD TO MONARCHY.

NOTE: LATER, THESE REPUBLICANS CALLED THEMSELVES "DEMOCRATIC-REPUBLICANS" AND, STILL LATER, JUST "DEMOCRATS."

TWO STRONG POLITICAL PARTIES AROSE, THE REPUBLICANS, WHO OPPOSED THE GROWTH OF FEDERAL POWER, AND THE FEDERALISTS, WHO SUPPORTED THE ADMINISTRATION. THE RIVAL PARTIES FORMED CLUBS AND BITTERLY ATTACKED ONE ANOTHER IN THE NEWSPAPERS.

THESE PARTISAN SQUABBLES WERE EVEN CARRIED INTO THE PRESIDENTS CABINET, WHERE JEFFERSON, GUIDING SPIRIT OF THE REPUBLICANS, AND HAMILTON, CHAMPION OF THE FEDERALISTS, OFTEN ENGAGED IN HEATED TILTS. © 1932, BY J. CARROLL MANSFIELD.

WASHINGTON CAME IN FOR HIS FULL SHARE OF HYPERCRITICAL ABUSE FROM HIS OPPONENTS, WHO TRIED TO FIND FAULT WITH EVERYTHING HE DID. THE HIGH-MINDED WASHINGTON WAS DISTRESSED AND HARASSED BY THESE MUD-SLINGING TACTICS.

High Track Team W.P.I.A.L. Meet

Seven Men Will Make Trip
To Pittsburgh For W.
P. I. A. L. Track
And Field Meet

LOCALS BANKING ON ANDY LASKY

New Castle High will be represented by seven young stalwart sons Saturday at the annual W. P. I. A. L. track and field meet to be held at the Pitt Stadium, Pittsburgh. It was announced by Head Coach Phil H. Bridenbaugh today.

Track Coach Bill Klee has been giving his Pitt meet champions a lot of attention lately and will have them at their best when they go to Pittsburgh this week. Lasky is being counted upon to carry through to first place in the high hurdles, and shot put. Lasky was the big star at the annual Pitt meet a few weeks ago and has bettered his marks in training here.

Scarazzo and Karki will again run the half-mile race and are expected to finish among the leaders. It was the work of this pair at the Pitt meet that helped pull New Castle through to the title honors.

Lane In Brood Jump

Lane will again be entered in the broad jump, and Coach Klee is looking for him to get a place this time. Klee's specialty in high school and Geneva was the broad jump and he has taught Lane the rudiments of the jumping game. Lane the colored halfback in football just missed placing in the Pitt meet.

Teplika and Johnny Uram will likely be entered in the 100 and 220 yard dashes, as both boys have shown worlds of speed in the various workouts at Taggart Field. Patsy James is another boy who is being counted upon by Coach Klee to come through with a place in one of the speed events.

Altogether about eleven will make the trip to Pittsburgh by autos early Saturday morning including Head Coach Phil H. Bridenbaugh, Track Coach William "Bill" Klee, Assistant Coach George "Gig" Thomas, and Faculty Manager Ralph H. Gardner. New Castle is expected to bring home the bacon again. The lot is going to be a tougher one than the Pitt meet, is the indication.

HERE AND THERE IN SPORTS' LAND

Waynesburg staged a surprise yesterday afternoon when the Yellow Jackets won a track meet from Juniata, 69% to 56%. The victory was the third Waynesburg has won within five days and the fourth of the season. West Virginia Wesleyan, Grove City, Washington & Jefferson having been defeated.

George McClure, former Northwestern Pennsylvania amateur champion led a field of 101 starters in the initial competitive meet of the season at South Hills Country club, Pittsburgh. His gross was 72 which was three shots better than his nearest rival. The meet is under the sponsorship of the Pennsylvania State Golf Association.

The outdoor boxing season in this section will get under way at Hickey Park, Pittsburgh, tonight, when Buck McTiernan attempts a comeback with Jackie Wilson as his foe. They are middleweights and are scheduled to go 10 chapters.

Paul McCullough, local pitcher, may be found with Des Moines in the Western league soon, he said a few nights ago. At present he is getting in condition by hurling for Scarazzo of the Lawrence County Baseball league.

Westminster-Geneva Track Meet Saturday

(Special To The News)
NEW WILMINGTON, Pa., May 19.—Following their initial victory over Bethany on Monday, the Westminster College track and field men are pointing for the dual meet with Geneva to be held at Beaver Falls on Saturday afternoon.

Although the Titan team is fairly well balanced, the Covenanters are favored to win by a good margin due to the number of performers available for each event.

Interesting duals will be between the hurdlers, hammer throwers, distance men, and middle distance men. Geneva has the high jump, pole vault, and sprints pretty much its own way. In the weight events, the two teams should break about even with the exception of the javelin where Geneva will be out in front.

Freshmen Look Good

The performances of Ray Sweeney, Youngstown, O.; Peter Leyschok, Farrell; Leslie Simpson, Saltsburg; Tom Hutchison, New Wilmington; Stanley Headlee, Whiteley; William Byers, New Wilmington; Calvin Hogg, Butler; and Wilbur Needham, Braddock, all freshmen, in the first meet would indicate that the Titan team has in this year's frosh class more than usual talent.

Following the dual meet with Geneva, the Titans will end the season with the Tri-State championships at Beaver Falls on Memorial day.

Yankees Win Nine Straight

Yanks Defeat Every Mid-West Team In Inter-sectional Games Just Ended

BABE RUTH WINS GAME WITH HOMER

By LES CONKLIN
International News Service Sports Writer

NEW YORK, May 19.—The New York Yankees, who stole practically all the limelight in the first inter-sectional round robin by winning all of their nine games with western invaders, come to grips with their closest rivals today when they take on the second-place Washington Senators in a double-header here.

The Senators, reeling from four straight defeats at the hands of the St. Louis Browns, are a game and a half behind the league leaders.

Ruth Hits Homer.

Babe Ruth, the old master, climaxed the Yanks' gallant stand against the western invaders with a dramatic home run in the tenth inning that gave Henry Johnson a well-earned decision over Clint Brown of Cleveland, 3 to 2. Washington, humbled by St. Louis 11 to 7 yesterday, could win one half of their ten games with the western teams. The Athletics won seven out of eleven inter-sectional battles, while the Browns led the Westerners with seven triumphs in twelve starts.

In the National League inter-sectional jousts, the Cubs led the way with eight wins and four losses.

The western clubs in the National League won 25 games from the east and lost 20. The eastern teams in the American League enjoyed a similar advantage, winning 23 and losing 18.

Fox, Simmons, Dykes and White hit homers yesterday as the Athletics downed Detroit, 8 to 2. Fox's four-bagger being his tenth of the year.

End Losing Streak.

The Boston Red Sox ended their losing streak of six straight by taking a 13 to 10 slugfest from Chicago. J. Smead Jolley, once with the White Sox, led the Boston attack with five straight hits.

Guy Bush hung up his fifth victory of the year as the Cubs made it three straight over the Phillies, 6 to 4. Chuck Klein smacked his seventh homer of the season with two on base.

With the aid of Berger and Worthington, who collected seven hits between them, old Tom Zachary of the Braves subdued the Cardinals, 5 to 3.

Seven runs in the seventh, featured by Bill Terry's ninth homer with two men aboard, gave the Giants a 9 to 3 decision over Cincinnati.

Lefty Clark of the Dodgers was "hot" and held Pittsburgh to four hits, winning 4 to 2.

Justice Of Peace Admits Kidnaping Story Only "Fake"

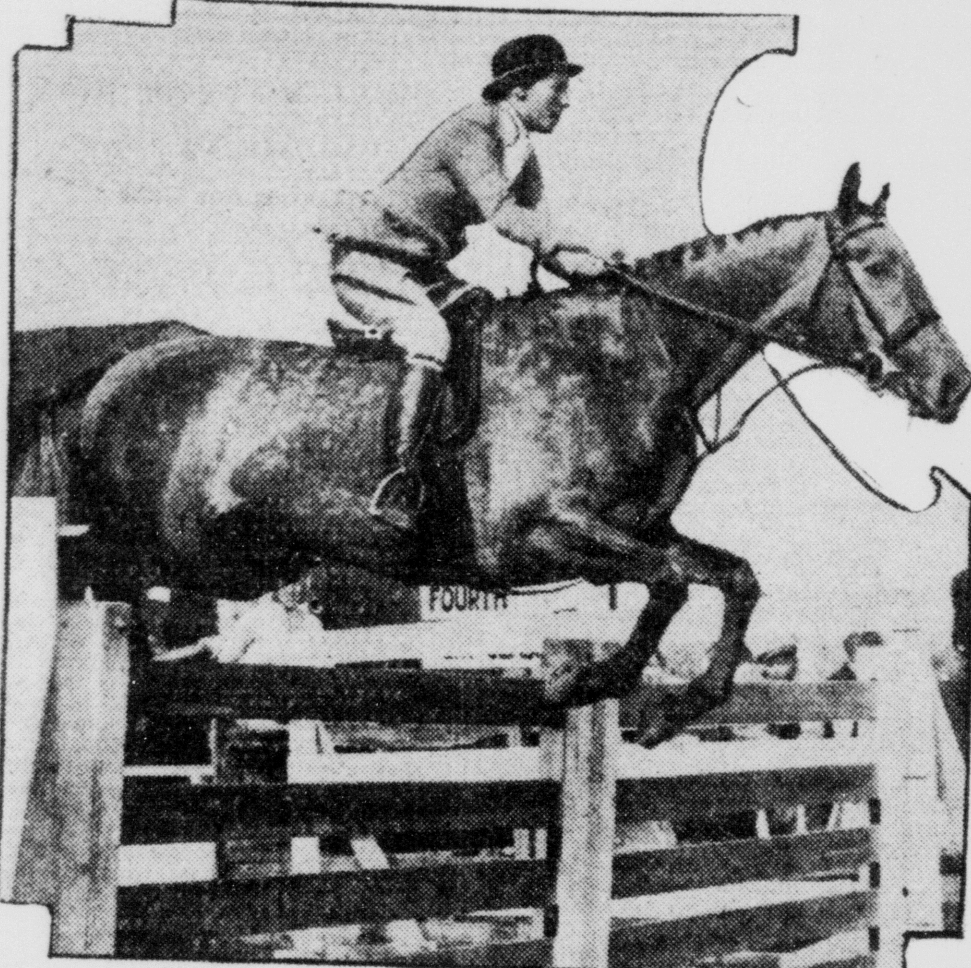

Had Ambition To Travel And Made Disappearance Look Like Kidnaping

(International News Service)
SCRANTON, Pa., May 19.—A fantastic tale of abduction today was put down officially as pure fiction. J. Drew Fague, 31, justice of the peace of Huntersville, Lycoming county, was released by local police after he exploded his own story of being kidnaped, beaten, drugged and half starved for eight months and then thrown by the roadside to die. The man admitted he left home of his own volition last September and never intended to return. He left indications of having been kidnaped to throw off pursuit, he said. During the interim, Fague traveled as far west as Colorado and shipped to South America and back. The yearn for home gripped him when he returned to the county a few weeks ago but he decided not to abandon the kidnaping hoax, he said.

C., horse show. Mrs. Whitney has taken more blue ribbons than any of the upper set exhibitors.

Universal Wins From Scarazzo

Shiek, Houston Stage Hurlers Battle; Huff Hits Homer And Double

Universal Sanitary Pottery sent Scarazzo into second place in the Lawrence County Baseball league Wednesday when Universal won 5 to 2 on the E. & A. grounds.

Houston and Shiek engaged in a hurling duel. Universal got six safe blows and Scarazzo secured four. Huff was the hitting hero of the day, getting a home run and double.

One of the nicest catches of the season so far was General's catch of Huff's drive in the last inning. Two runners were on base but General's catch made the third out.

JUNIOR TRACK TEAMS READY

Washington A n d Franklin
Junior High Track Meet
Carded For Friday

Tomorrow afternoon at 4 o'clock Daylight Time at Taggart Field, George Washington Junior High track teams and Ben Franklin Junior High track teams will stage their annual meet. Franklin won the honors last year, but Dan Carroll of the Westminster school feels that the meet set for Friday will find his school giving Franklin a tough engagement. There will be four classes of boys compete, those under 80 pounds. Boys from 80 to 100, and from 100 to 120, and boys over 120 pounds. There is a lot of rivalry between these two schools and a great meet

is looked for. Coach Gillaspie at Franklin High has been giving his speedsters some stiff workouts for the past few weeks in preparation for this meet. The Washington boys are trained right down to the minute.

Ralph H. Gardner, of Senior High is gathering the officials for the meet and will have the High School track men Bridenbaugh, Kloe, Thomas, and others assist in the handling of the meet and the various events.

In event of good weather a nice turnout will greet the efforts of the cinder path stars as they strive for points.

The difference in SAFETY is about 10,000 Miles

ANYONE who gives a little thought to non-skid safety must quickly conclude that there are only two kinds of tire treads.

One has straight, smooth, sled-runner ribs of rubber where the tire contacts the road.

The other has tough, stout, sharp-edged, sure-biting traction blocks in the center of the tread.

Virtually all tires fit the first description—and the one important exception is the Goodyear All-Weather Tread.

It is interesting to note in this connection that more people ride on Goodyear Tires than on any other kind.

THEY must find by experience that center traction makes Goodyear Tires safer—but you might like to ask "how much?"

The answer, as nearly as we can figure is—about 10,000 miles.

A new tire with smooth rubber in the center of the tread is no safer than a Goodyear after its tread-center has worn smooth in use.

And judging from average driving experience, Goodyear All-Weather Tread Tires keep their clean-cut center traction—their non-skid safety—for somewhere around the first 10,000 miles.

You can draw your own conclusions, but it looks to us as if this made Goodyears 10,000 miles safer than other tires.

There seem to be several million motorists like yourself who have reached the same conclusion, because Goodyear Tires are first choice by millions.

If you want extra safety in the next tires you buy, just ask yourself one question: Why buy a second-choice tire when first-choice costs no more?

Why be satisfied with a second-choice tire when FIRST-choice costs no more!

Drastic Blow At Short Selling

New Regulation Goes Into Effect In New York Stock Market

(International News Service) NEW YORK, May 19.—A drastic blow was struck at short selling by a stringent regulation which went into effect today on the New York stock exchange. Members were ordered by the board of governors to "demand and maintain" a margin of \$10 a share on all short sales, regardless of price. More than half the stocks now actively dealt in on the exchange are selling at less than \$10 a share, a recent survey showed, while the average listed price of all stocks on May 1 was \$15.34 a share. The ruling required the \$10 a share margin be computed separately in the case of customers having both a long and a short account.

Inner Workings Of Radio Pool Are Explained

Reveal Prominent Men In Business World Cleaned Up About \$4,719,880.71

ENORMOUS SUMS MADE QUICKLY

Senate Committee Hears How Big Pools Were Organized On Stock Exchange

(International News Service) WASHINGTON, May 19.—An amazing picture of pool operations on the New York stock exchange, which a group of speculators rolled up \$5,000,000 profit in one week's handling of new radio stock, was given the senate committee today by Thomas E. Bragg, New York operator.

Bragg was one of the managers of the pool. The other, Franklin Ellsworth, could not be found by the committee. Bragg said the pool operated from March 12 to March 20 in 1929. William A. Gray, special attorney for the committee, revealed the pool plungers included Percy A. Rockefeller, Nicholas F. Brady, Walter P. Chrysler, Herbert B. Swope, W. P. Kenny, J. J. Raskob, L. P. Fisher, Charles M. Schwab, W. C. Durant, Mrs. David Sarnoff, wife of the head of the Radio corporation, and other prominent New Yorkers.

The pool brought 551,000 shares by putting up \$9,667,500 and took down a profit of \$3,217,570.53 in the eight days, through Meehan & Co. It likewise bought 237,500 shares putting up \$2,730,000 and taking \$1,502,310.68 profit through Hutton & Co.

In the Meehan operation, Brady, Kenny, Raskob and Michael P. Brady each put \$1,000,000 and each received \$291,710.80 profit for the ten-day venture. Made Enormous Profit. The whole group in the two accounts made a total profit of \$4,719,880.71. Gray said the pool took some radio stock too, through Block & Maloney, which raised the total profits to \$4,924,078.27. It ran their total investment, \$12,683,000. At the outset Gray announced he was going to present picture of a pool run in radio stock from March 12 to March 20, 1929, and show its profits. "Is this just an isolated case?" asked Senator Fletcher (D) of Florida.

"No, it is a typical case," Gray replied. He said Bragg had no present connection with any brokerage house but was a member of W. E. Hutton in 1929. "You were a partner in that radio pool I have mentioned, were you not?" said Gray. "My wife, Vera, was," answered Bragg. "Who else managed the pool?" "Frank Ellsworth," replied Bragg. Gray said Ellsworth was not in New York at present.

Reveals Big Splits. Gray then exhibited a copy of the syndicate agreement on this radio stock. He read the agreement under which the operators limited their holdings to 1,000,000 shares of Radio "long or short." It showed that Bragg and Ellsworth, as it managers, would split 10 per cent of the profits. During this operation, Bragg admitted, he was in Florida.

Charles M. Schwab invested \$200,000 in the pool and received a profit of \$58,342.15, Gray testified. W. J. Higgins and Bradford Ellsworth each made a profit of \$145,839. Walter P. Chrysler invested \$500,000 and got \$145,855.33 profit. Jessup and Lamont, a brokerage firm, put up \$100,000 and got a profit of \$29,171.08.

Herbert B. Swope put up no money, was given some of the stock and made a profit of \$58,242.15.

U. S. Steel Shows Market Strength

Rally In Wheat Is Also Helpful Market Factor In Day's Trading

By LESLIE GOULD International News Service Financial Writer

(International News Service) NEW YORK, May 19.—Support accorded U. S. Steel and American Telephone and a flurry in the oil came to the support of the stock market today after an early decline induced by weakness in the utilities. A rally in Wheat, was another helpful factor.

Strength in U. S. Steel was surprising in view of the lack of cheer in the statements of the industry's leaders at the meeting of the American Iron and Steel Institute. The rise in Steel prices was seen as a reason in that it brought about some short covering. Oils worked higher on continued expressions of optimism over the outcome of the International Petroleum conference and the improving news from the industry. Standard of New Jersey was the strong spot in the group.

Weakness in the utilities was led by North American, Standard Gas and Electric and the Electric Bond & Share group. The first two went to new bear market lows. Bond & Share broke its previous resistance point on the curb and this brought a heavy tone to its affiliated companies on the big board.

Every man owes so much to himself and family that he cannot afford to owe anyone else.

Soviets Desire Co-operation In Oil Conference

Soviet Officials At World Conference Try To Bring About Friendly Feeling

(International News Service) NEW YORK, May 19.—Although discussions in the International Petroleum Conference today continued in the preliminary stage, the Soviet representatives attending the meeting have shown a desire to co-operate, according to Charles E. Arnot, head of Socony-Vacuum Corporation, and James A. Moffett, Jr., vice-president of the Standard Oil of New Jersey.

"We are trying to bring ourselves in accord," they stated. Discussions have revolved about a pool of leading world producers to absorb surplus Soviet production thus removing this pressure on prices, it was said. However, no specific plan for taking care of the Russian Oil surplus has been developed as yet.

MUST ENACT MANY IMPORTANT BILLS

By GEORGE R. HOLMES International News Service Staff Correspondent

WASHINGTON, May 19.—The novel spectacle of congress sitting sullenly in Washington throughout the torrid month of June while the "amateurs" gather at Chicago to nominate the next president of the United States in the two big political conventions was thrown upon the national screen today by worried leaders of both parties. Unless congress steps on the legislative accelerator and disposes of the new billion dollar tax bill, effects savings of hundreds of millions of dollars in government economies, enacts the appropriation bills, and provides some relief for the millions unemployed, all by June 11, then the leaders solemnly aver that the country is going to be treated to this extraordinary sight. Order Is Big One

It is a big order to accomplish in the 19 legislative days left between now and June 11. Few believe it can be accomplished—and fewer still believe that 435 representatives and 96 senators are going to be kept a thousand miles away from "the shooting" at Chicago despite the solemnly voiced threats of the leaders on both sides. The leaders may propose—but the membership disposes.

Many Are Delegates. A majority of the members of both houses are delegates to their respective conventions. Most of them occupy positions of leadership in their respective delegations. The keynoters and the permanent chairmen, as well as the chairmen of the principal convention committees, almost invariably are drawn from Capitol Hill in both Republican and Democratic conventions.

Talk Of Third Party Is Heard In Washington

Senator James Hamilton Lewis, Illinois, Foresees Third Party Formation

By KINGSBURY SMITH International News Service Staff Correspondent

WASHINGTON, May 19.—A warning that both political parties will be "consumed" in the formation of a third party by the end of the year, unless congress enacts a definite program for unemployment relief before adjournment was issued today by Senator James Hamilton Lewis (D) of Illinois.

Lewis said the third party would base its platform on unemployment relief through government control of business. He predicted there would be an open revolt at both the Republican and Democratic conventions unless the parties presented a program assuring some form of immediate relief for the jobless millions. Relief Is Needed.

Lewis said the action of party leaders yesterday in announcing that congress would not adjourn until relief legislation had been passed was prompted by the growing signs of this threat to the two great political parties. "I have been constantly warning my own party against this threat of a third party," he said. "I am pained to say the signs of it are becoming more apparent. If the revolt comes, it will be at the conventions. I would not be surprised to see the delegates walk out of both conventions to form a third party. Support will come from the agricultural districts and the industrial cities of the east."

Fire Protection Conference Looms

City And Adjacent Territory Officials May Confer Soon

City Solicitor Robert White today intimated that city officials and officials of surrounding townships and boroughs soon will confer on the matter of dispatching of city fire apparatus to sections outside the city when a fire call is received by the local fire officials.

The officials, he said, will request the officials of the surrounding sections to either post a cash sum by which the city can pay for protection of equipment and firemen or boroughs take out insurance protecting city firemen and equipment. Under the state law it is said, volunteer firemen would be protected if injured while fighting blazes outside the city but paid members of the department would not be protected. As the department receives and has been replying to outside alarms and several firemen have narrowly escaped injury the city is desirous of having protection for man and equipment.

Gypsies Rob Gas Service Station

During the absence of James Maxedon, who conducts a gasoline service station at 808 State street, about noon today, his father-in-law, George Cluse, who was in charge of the place, became suspicious of the actions of four gypsies, two men and two women, who stopped at the station.

On the return of Mr. Maxedon, who had checked his cash register prior to leaving, he discovered and knew the amount of money on hand then, Mr. Cluse spoke of his suspicions and another checkup was made and \$7 was found missing. The police were called and found that the four gypsies were traveling in a Lincoln sedan bearing an Indiana license.

Painful Piles

Go Quick—No Cutting—No Salves

It takes only one bottle of Dr. J. S. Leonard's prescription—HEM-ROID—to end itching, bleeding, protruding piles. This internal remedy acts quickly even in old, stubborn cases. HEM-ROID succeeds because it heals and restores the affected parts and removes blood congestion in the lower bowel—the cause of piles. Only an internal medicine can do this, that's why salves and cutting fail. Eaker's Cut Rate and New Castle Drug Co. says HEM-ROID Tablets must end your Pile misery or money back.
